MANAGEMENT FORCE aims to establish SAFETY GALA as an event aiming at the presentation and advance of novel and enhanced practices on Health & Safety issues, the exchange of expertise and ideas and the creation of a permanent cooperation between the participants.

With the experience of already four events, **SAFETY GALA 2014** aims both to rise to prominence successful approaches and solutions and, mainly, to provide a forum for an ongoing conversation and optimisation within the organisations of interest and/or involvement of the participants and within society in general.

The participants have the opportunity to exchange their experiences, discuss their successes, failures and application of practices in order to response more effectively to the risks at work.

SAFETY GALA 2014 addressed to:

- CEO & General Managers
- Public Administration Officers
- Health and Safety Managers
 - H&S Professionals
 - Production Managers
- Human Resources Managers
- Environmental Managers
 - Quality Managers
- Management Consultants
